DISASTER TEAM
TRAINING

CEM was created to fill an emerging gap related to emergency preparedness and disaster team training. As public sector budgets continue to decrease, the need to support private sector and public entities increases.

TRAINING & EXERCISE

Enhance your next training or exercise by creating images of your jurisdiction or facility damaged by an earthquake, fire, or flood.

Simulated damages were added to the image above to provide a sense of realism for First Responders, CERT teams, and others involved in response to a major earthquake.
